

Oklahoma School for the Blind Short Term Programs

Oklahoma School for the Blind (OSB) Short Term Programs are designed to provide Expanded Core Curriculum concepts in Braille, Assistive Technology (AT), Independent Living Skills (ILS), Orientation & Mobility (O&M), and compensatory skills training for Blind and Visually Impaired Students in Oklahoma.

Classes offered through this program include:

- **Weekday classes**

Students will have time to receive Short Term Program Instruction and Training, with allotted time to complete their current assignments from their home school district so they do not fall behind in their studies.

- **Distance Learning Classes**

Students meet virtually with an instructor from OSB to learn how to complete a new skill and then have independent time to work on the skill before following up instruction and training with the instructor.

To apply for a Short Term program, please contact Samantha Charles at scharles@osb.k12.ok.us by April 14, 2022.

Remaining SY 2021-2022 Dates: May 2, 3, 9 & 10.
